

## Acknowledgement

The GI\_Forum 2015 programme committee contributed to and shared their expertise with the GI\_Forum team in the areas of GIScience especially focusing on innovations in technology, science and education in the spatial domain. Quality assurance of the GI\_Forum programme and the journal publication relies to a great extent on the willingness of these committee members to allocate their time for assessing submitted contributions and providing valuable comments for good quality publications.

On behalf of all the participants, and particularly the authors of the GI\_Forum 2015, we express our very special *THANK YOU* to the following persons:

Suchith Anand	University of Nottingham
Richard Armitage	University of Salford
Mohamed Aziz	Fayoum University
Euro Beinat	University of Salzburg
Lars Bernard	University of Technology Dresden
Thomas Blaschke	University of Salzburg
Johannes Brauner	University of Technology Dresden
