# Table of Contents

1. **Two approaches to the future of the Alps**
   1.1. *Orožen Adamič M.*: Introduction
   1.2. *Lange E., Wissen U., Schroth O.*: Scenarios of alpine futures: 3D-visualization for decision-support in landscape management
   1.3. *Debarbieux B.*: Foresight: the range of methods available

2. **What future for the natural environment and use of its resources?**
   2.1. *Ruoss E., Gogala M.*: Introduction
   2.2. *Beniston M.*: Climatic changes and their impact on the Alps
   2.3. *Meissner S., Roller A.*: Sustainable Management of Alpine Water Potentials
   2.4. *Arduino S.*: A vision for the biodiversity of the Alps
   2.5. *Bizjak J.*: Conservation areas in Slovenia and their role in the protection of the Alps – an example: Triglav National Park
   2.6. *Bartol B., Bratina-Jurkovič N.*: Regional planning in the Alps – the Slovenian experience

3. **Which landscape do we prefer?**
   3.1. *Alfaré L.*: Introduction
   3.2. *Buchgraber K.*: Cultural landscape as a product of land use
   3.3. *Brancelj A.*: Fish introduction and effects on local fauna – restoration measures
   3.4. *Mauz L.*: The Alps, future zoo of Europe?
   3.5. *Pfefferkorn W.*: Cultural landscapes between urban areas and wilderness: The Alps in the year 2020
   3.6. *Hunziker M.*: Preferences and conflicts regarding future landscape development in the Alps: theoretical models, representative surveys and consensus-building experiments

4. **Economic perspectives: subsistence or prosperity?**
   4.1. *Vogel H.*: Introduction
   4.2. *Boesch M.*: Alpine economy – from subsistence to global division of labour
   4.3. *Bourdeau P., Corneloup J.*: What tourists and tourism will look in the future
   4.4. *Pastorelli F.*: Is the game worth the candle? Questions asked by NGOs about the economic sense of tourism
   4.5. *Götz A.*: ‘Future in the Alps’ – awakening the power of the Alps
   4.6. *Jančič M.*: Sustainable Alpine Space – more than protected area
   4.7. *Siegele R.*: Alpine communities buffeted by the winds of economic change – Problems and possible solutions
   4.8. *Žerjav J.*: Alpine regional development as seen by a local authority – the Municipality of Kranjska Gora

5. **How will alpine societies change?**
   5.1. *Fourny M.-C.*: Introduction
   5.2. *Borsdorf A.*: Where will alpine populations live? Changing traditional lifestyles and urbanization patterns
   5.3. *Meusburger P.*: School system and educational achievement in alpine areas – current and future problems
   5.4. *Amstutz M., Stettler J.*: Leisure and tourist traffic in the Alps – perspectives until the year 2020
   5.5. *Weissen A.*: Alpine cities between despondency and new self-esteem
   5.6. *Stritih J.*: Alpine Convention – a framework for future competitiveness and sustainable development of Slovenia in the EU

6. ISCAR Workshops

6.1. Demographic developments in mountain areas of Europe.
Challenges, research demand, perspectives

6.1.1. Psenner R.: Key questions

6.1.2. Hill A., Lindner C., Schürmann C.: Infrastructure, economic situation and demographic patterns in European mountain areas

6.1.3. Varotto M.: Concentration and abandonment in alpine areas and their impact on landscape structures

6.1.4. Guido L.: The alpine city – an oxymoron?

6.1.6. Ruffini F.: Transport through and in the Alps: necessity and burden

6.2. Key issues of landscape development in the Alps

6.2.1. Stucki E.: Key questions

6.2.2. Messerli P.: Swiss NRP 48: Landscapes and Habitats of the Alps

6.2.4. Rodewald R. et al.: Maintenance of the traditional cultivated alpine landscape by means of institutional resource regimes

6.2.5. Pfefkerkorn W. et al.: REGALP: Regional development and cultural landscape change: The example of the Alps. Evaluating and adjusting EU and national policies to manage a balanced change

6.2.6. Lavorel S.: VISTA – Vulnerability of ecosystem services to land-use change in traditional agricultural landscapes

6.2.7. Fleury P.: IMALP – Implementation of sustainable agriculture and rural development in alpine mountains

6.2.8. Levett C.: Euromontana project: strategic information for development of quality mountain food products in Europe

6.2.9. Smoliner C.: proVision – providing for nature and society

6.3. Participation – a key element for sustainable development

6.3.1. Ruoss E.: Participation – a key element for sustainable development – from the Entlebuch Biosphere Reserve to INNOREF

6.4. Mountain sports without Alps

6.4.1. Bourdeau P.: Key questions

6.4.2. Schmude J.: Skiing without mountains? The tourism of skiing between the Alps and ski domes

7. Project Fairs and posters presentations

7.1. Co-operation projects with alpine focus (INTERREG IIIb Alpine Space)
(Moderation: Salletmaier C.)

7.2. Biodiversity networks – challenges for the future: how to implement biodiversity visions?
(Moderation: Arduino S. & Plassmann G.)

7.3. Global change research in mountain areas
(Moderation: Peršolja B. & Brun J.-J.)

7.4. Cultural and social change in the Alps
(Moderation: Werlen L.)

7.5. An observatory for the Alps: building the SOIA network
(Moderation: Schleicher-Tappeser R.)

7.6. Further poster presentations

8. List of participants and contributors
